

The Clearing Statement

You don't have to understand the clearing statement for it to work...it just works. And, it tends to work even deeper when the clearing statement is said in a language other than your own. The clearing statement is designed to bring up energies and clear them. It bypasses your logical mind and goes directly to you, the being. And, you the beings are the ones who can create the possibility. If your logical mind could solve the things that were not working in your life, wouldn't it have done so already? The clearing statement is designed to access your 'insane mind' which is where the answers to the interesting life you are creating lie. All the freedom comes from your insane mind, not your logical mind.

“Right & Wrong, Good & Bad, POC & POD, All 9's, Shorts, Boys and Beyonds”

Right & Wrong, Good & Bad stands for “what's right, good, perfect and correct about this, and what's wrong, bad, awful, mean, vicious and terrible about this.” It is the things that we consider right, good, perfect and/or correct that stick us the most, because we do not wish to let go of them or we have no apparent reason to let go of them. It is much easier to look for the things that feel wrong, bad, imperfect or incorrect to ease our pain and suffering.

POC stands for point of creation of the thoughts, feelings and emotions immediately preceding your decision to have this.

POD stands for the point of destruction, all the ways you have been destroying yourself in order to keep whatever you're clearing in existence.

All 9 stands for all 9 layers of stuff that we clear energetically.

The long version of “Right & wrong, good & bad, all 9” represents:

1. How have we made this right, good, perfect and correct, or wrong, terrible, awful mean and vicious?
2. How does that diminish us?
3. How does that make us absolutely, totally, irrevocably, infinitely, utterly and eternally meaningless?
4. What are the rewards that make this right, good, perfect and correct or wrong terrible, awful, mean & vicious?
5. As _____ what choices have we made or are we making?
6. As _____ what creations create the commitments to the creation of our limitations?
7. As _____ how many limitations of dimensionality hold this in existence?
8. As _____ how many controls, definitions, limitations, forms, structures, significances, linearities, and concentricities of you hold this in existence?
9. As _____ what are you unwilling to destroy that holds this in existence?

Shorts stands for “What’s meaningful about this, what’s meaningless about this, what’s the punishment for this, and what’s the reward for this”. That’s the short version.

The long version of shorts is: What does _____ mean to us? How do we make it meaningless? What are punishing ourselves for and torturing ourselves with in relation to it? What are the rewards of it? How many layers and non-layers do we have in relation to it? How much meaningless glom and glop do we have in relation to it? Right and wrong, good and bad, POD and POC, all 9, shorts, boys and beyonds.

Boys stands for nucleated spheres. These are pre-verbal. Basically these have to do with those areas of our life where we’ve tried to handle something continuously with no effect. When that occurs, we have the Boys in the Hood.

There are some issues that are onions, where you peel away and you get to the core of the issue, and are some that are not. They are two different things. If you never get to the core of the issue, you are dealing with the nucleated spheres. A lot of what we have tired to peel the layers of the onion on is not actually an onion at all but it’s a nucleated sphere.

If you have ever in any lifetime done peeling the layer of the onion as a way to clear an issue and it doesn’t clear, it’s because it’s a nucleated sphere. After 25 billion years of peeling the onion, you never get clear.

Nucleated spheres are like kids’ bubble pipes that have five little chambers in it and you blow in it and it fills up with bubbles. You pop one and it fills in, and the issue never goes away. The source of it is over here where someone’s blowing and you keep popping the bubbles somewhere else and the issue doesn’t ever truly go away.

How many nucleated spheres do you have that you’ve misidentified and misapplied as the incomplete onions of your life, and everything that creates, can we destroy and uncrate it please? Right and wrong, good and bad, POD and POC, all 9, shorts, boys and beyond.

Beyonds are feelings or sensations we get in our body that stop us dead in our tracks. Did you ever get a bill that was more than you expected? When you get that bill, everything stops and solidifies in time, space, dimensions and reality. That’s a beyond. We have lots of areas in our life where we freeze up. Anytime you freeze up, that’s the beyond holding you captive. That’s the difficulty with a beyond: it shops you from being present.

Beyonds include everything that is beyond belief, reality, imagination, conception, perception, rationalization, forgiveness and all the other Beyonds. They are usually feelings and sensations – rarely emotions and never thoughts. Beyonds are implants and explants that have only feelings and sensations to them. They are a specific implant designed to limit us. Most ‘ex’ words are beyond – excitement, exhaustion, etc.
